Customer Reviews

I was asked if I wanted to be gifted a copy of *Blindsided* in exchange for an Honest review. After reading the blurb, I said why not? This is my first book from Kylie Walker and I like it! It's *Fast and the furious*, meets forbidden love. The book has substance, Sam comes from a "abusive and

dysfunctional" family, but come out strong. She loves to race, knows her priorities, stays away from alcohol and drugs. Her father cheated on her mom, left them, mom passes away, realises Dad tried to make amends, reaches out to dad, Lives with dad, and meet's Conrad. Conrad who also loves to race, seems to be the perfect man for her (even though she isn't looking for love). When the two met, both have the sudden instant attraction, but later find out that they are sort-of family as they are step-siblings. There was no shortage in emotions as each character has their own set of baggage. Even the friends of friends have their own stories to tell. I got emotional towards the end and could not help but cry. I could say, I myself got "Blindsided" by this book. I did not expect to enjoy reading it with domestic violence a big part of the book and with Sam's dad story... Broke my heart. Overall, I give it a 4.5 Star rating. Thank you Kylie for giving me the opportunity to read a story with close to real life happenings, to make it with silver linings at the end of the tunnel. For love and Hope.

I loved the depth of the characters. Both Sam and Aaron came from an abusive home life and needed LOVE to get them through. Luke was amazing and brought these kids to his home. Conrad is Luke's stepson and also had an emotional past. Seeing Sam and Conrad grow as friends and lovers was cute. I laughed and cried while reading.

I just literally just finished it and I still have tears in my eyes. What an emotional, heart wrenching story. If there is a lesson to be learned in this story is time is so short and precious and you should not waste any of it. Sam and Aaron suffer through an abusive home situation and end up moving in with her biological father, Luke, who is a stranger to her and who has a step-son named Conrad who is also dealing with his demons. Sam and Conrad are instantly attracted to each other. Conrad has a racing crew who are made up of his friends who are basically "troubled" kids but are very close and are like family to him. I enjoyed the story and meeting the characters. In my opinion, I like more explicit sex scenes in my stories although the love story part of it was tender and sweet. there is a sort of HEA, no cliffhangers but I would like to maybe in the future read a little more about the other characters, especially Aaron. I was given an ARC of this book in exchange for an honest review.

I was asked to review this book and give an honest review of it. The storyline starts out with Samantha (Sam) and her step-brother, Aaron, living in a very volatile abusive environment. The mother is hooked on alcohol and drugs and the step-father is an abusive alcoholic, as well. The mother does nothing to protect her son, Aaron, from being beat up constantly by his father. The only

escape for Sam is racing her 1966 mustang. While she is out at the racetrack, she receives a call from Aaron that their mother is dead. The stepfather is arrested for possible murder of his wife and assault on Aaron. These leave Sam with the only other option of reaching out to her biological father, who left her when she was a year old. Her mother hid the fact from her that her father, Luke, had sent mail, cards, and money to her all throughout the years. So that Aaron wouldn't end up in foster care, Luke dropped everything and moved both Sam and Aaron to his home in California. Sam finds out that she and her father have so much in common and actually starts to bond with him. Things start to look up and she feels like she has a real home now. She also becomes involved with Conrad, who has a race crew, that she becomes part of. The race crew certainly has their share of dysfunctions going on, as well. But they are there for each other. She and Conrad are attracted to each other and become romantically involved. Little did they know, but Conrad was her step-brother. To add more drama to her life, Luke, her father is rushed to the ER. You will have to read the book to see how it unfolds. The storyline is a roller coaster ride of emotions and what happens in real life! The reader can definitely relate to the characters and almost experience their emotions. This book really touched my heart and I'm sure it will for you too!

Blindsided by Kylie Walker is a stand alone contemporary romance about the struggles of family and life and how one small family unit comes together and learns to rely on each other and to trust again. The writing was good and the pace was steady. I have read other books by Kylie Walker that seemed to flow off the page and directly into my imagination better than this one did but I absolutely adored the storyline and couldn't put this one down. From Samantha's broken home and the abuse she and her brother Aaron have suffered through to the rescue by the family member she didn't realize would be there for her and then to the new group of friends who become like family to Samantha and Aaron. This was heart wrenching and beautiful and fun in equal parts. Throw in a step-brother to mix up the romantic times and it's a hit for me. Awkward and tough and beautiful!
