Mated To The Berserkers: A Menage Shifter Romance

Synopsis

For over a hundred years, the Berserker warriors have fought and killed for kings. There is but one enemy we cannot defeat: the beast within. Customer Reviews

Such a great book. We learn so much more about the pack's history and the relationship between Breanna and her mates. The characters are so well developed that you can almost feel their intensity. A hot yet sweet story. Ms. Savino delivers another fabulous read. I enjoyed the story immensely and look forward to the next one.

I loved this book! It offered suspense, danger, paranormal romance done very well, adventure, and a whole lotta steam! I look forward to the next installment! Quit reading here, buy the book and enjoy the ride!

Mated to the Berserkers by Lee Savino is an entertaining read. Ms Savino has delivered a fun book. Samuel, Brenna and Daegan's story is fast paced and loaded with drama, humor, action and enough heat to melt your kindle. If you don't like sex in your books, you may not want to read this. I loved the characters Ms Savino has created for this book, they are well-developed and perfect for this story. This is a fairly quick read, perfect for those with limited time for reading. I enjoyed reading Mated to the Berserkers and look forward to my next read by Lee Savino. Mated to the Berserkers is a complete book, not a cliff-hanger. I received a copy of this book for review purposes.

This second book from the series follows on from the first but enjoyment is not dependent upon having read the first book. I like that because it means that there is very little time taken at the start of the story retelling what's already happened, it just gets on with telling this story. I enjoyed learning more of the characters & their background & I found that the inclusion of Norse mythology added another dimension to the story. So often stories are told from either just the heroines view or from both views but I like that this was exclusively from the men's viewpoint. It added to depth to the muteness of Brenna. Looking forward to the next story.

I love reading Lee Savino's books. This woman is a natural at writing erotic love stories, and Mated to the Berserkers is no exception! This is a quick read, but it's hot and fun! You've got menage, and romance, and spankings, and some shapeshifting thrown in for a little extra excitement! Who could ask for more? This is the second book in her Berserkers series, and just like with the first one, I'm left hoping she's writing quickly, so I can get more! This does not end on a cliffhanger though. I received a complimentary copy of this book in exchange for an honest review.

I don't read much menage books however this book was so well written that I had to sit in front of the fan to finish it. It was hot, explicit and heart pounding and a fast paced exciting read. Of course some parts had to be read more slowly, lol. The history of the pack of was awesome and how the heroine ended up with the shifters. I was given this advanced reader copy by the author for an honest review and the thoughts and opinions are mine.

I thought Sold To The Berserkers was a great story but Mated is an awesome book! The chemistry between the three main characters is amazing. You can feel their heat, love and passion. Lee Savino is a true master at writing menage. I'm always left anxiously waiting for her next book. I

received this book in exchange for an honest review.
