## Customer Reviews

I bought this book as a part of a 4-pack for my almost 3 year old son. Although I thought it's geared more towards 3-4 year olds, I should say, that my son took immediate interest in it and has been asking to read it every day now. The book is very colorful, has lots of pictures and appears to be very interesting. Plus it really motivated my son to brush his teeth on a regular basis, when before it was always a push and a struggle. Now it's fun for him, because he knows that he is "cleaning his mouth from all the germs" :)The other books in the series 1) why do I go to sleep; 2) why do I wash my hands, and 3) why do I run? are also very nice. May be except for the 3rd one, my son is too little to comprehend that one yet. But it's definitely money well spent, I am extremely pleased with the purchase.
