Veiled

Synopsis

She just wanted a normal life. He had other plans for her. VEILED is a STANDALONE paranormal romance/urban fantasy (think a contemporary romance with supernatural elements, like the show Supernatural, but with hot romance and no bromance!) from the New York Times bestselling author of The Pact and Sins & Needles Death. It's something that Ada Palomino has always known so well, having grown up in a house of horrors, surrounded by a family plagued by ghosts and demons and things that go bump in the night. But after the sudden and tragic death of her mother two years ago, death has never felt so personal. Or so close. Now eighteen, Ada is trying to move on with her life and the last month of summer holds nothing but sunshine and promises with her first year at a Portland design school just around the bend. That is until her increasingly violent and realistic dreams, dreams of other worlds, of portals and veils where her mother is tortured and souls bleed for mercy, start to blend into reality. Ada has to lean on her older sister, Perry, to try and make sense of it all but even then, she's never felt more alone. Then there's Jay. Tall, handsome and deeply mysterious, Jay would be just another stranger, a familiar face on the bus, if it wasn't for the fact that Ada has met him before. Every night. In every single dream. And the more that Ada is drawn to him in both worlds, the more she's in danger of losing everything. Including her heart. And her very soul.

QUESTIONS ABOUT VEILED: Q: Is this YA? A: No. The main character is 18 and there is sex, crude language and violence in the book. Readers sensitive to those components may not find the book suitable. If you are a reader who doesn't like a lot of the "F" word, this is your warning.... Q: Is there a cliffhanger? A: Nope! There's also no cheating and no love triangle (think I've covered the bases there!) Q: Do I need to read the series (Experiment in Terror) that Veiled is a spinoff of first? A: Nope. Absolutely not. Veiled stands alone from that series. Don't listen to anyone say otherwise. EiT fans are very passionate about their series and want to share the love (and I love them for it) BUT Veiled was written specifically for those people who haven't read EIT. And furthermore...most importantly...IF you do decide after reading Veiled that you would like to read EIT, then I promise, promise, promise that your enjoyment of that series will not be spoiled or compromised. Trust me on this. EIT is too epic of a series to be spoiled. PS if you are a passionate EIT fan, Veiled is a great starter to get people interested in this whole "world." Also, all your favorites do appear in this story as it takes place right after Dust to Dust. Q: Is it horror? Your other series was and I don't handle scary very well... A: No, it's paranormal romance (though I promise you there are no vampires or werewolves), and while there are creepy elements to the story, it wouldn't be classified as horror. You'll be fine.

Customer Reviews

As an avid reader of the Experiment in Terror series, and having read and been familiar with these characters since 2012, I was absolutely in my element when I discovered that this highly anticipated novel would be written and published by author Karina Halle. Fear not, however, as *Veiled* can be read as a complete standalone novel, and whilst I was already in love with Ada Palomino and her family, you will not be totally lost as everything you need to know to enjoy this story is explained very well here. Ada is our young and witty heroine, she is a fashion blogger who is just about to start college, and is a little spitfire who has a good head on her shoulders, despite the fact that she sees dead people and demons. Luckily for her, she has her sister Perry and brother-in-law, Dex, to help her come to terms with the fact that she is a little different to most people her age. Grieving the death of her mother, she is starting to have vivid nightmares which also include a gorgeous ginger guy named Jay, who turns out is her protector and the man to help guide her in her journey to slay demonic creatures. Ada and Jay's romance is a slow delicious burn, that makes you want to keep reading. Jay was an enigma who kept his cards close to his chest, but made you swoon with his protectiveness and strong alpha characteristics, I loved them together and I would love to read more as their relationship develops. Overall, I would say that this is a scary, but sexy read that will spook you out and make your heart flutter at the same time.
