## Synopsis

Saints Protection & Investigations A private investigation business, pulling together men from the CIA, FBI, ATF, DEA, Border Patrol, SEALS, and police, devoted to the missions no one else wants or can solve. Veterinarian Blaise Hanssen understood animalsâ especially the strays he collected. When he stumbled across a dog and its homeless owner scrounging for food in an alley, his protective instincts kicked in. But the woman quickly disappeared before he could help. Searching for her, he discovered a beautiful woman and her dog needing to be rescued. An accident had robbed her of her memory, but the faithful companion dog was the key to her past. Scared, could she trust the handsome veterinarian offering to help unlock her past? As the two unraveled the mystery of her amnesia and the intentional accident that caused it, Blaise called upon the Saints to assist when it appeared trained dogs, drug cartels, the TSA were involved. Discovering who tried to kill her was his primary missionâ falling in love with her was his reward. \*\*\*\*Due to scenes of an explicit sexual nature and language that some consider crude, please be warned - for 18+ only! ## Customer Reviews

I love this series, this book is my new favorite of the series. I just love Blaise. He is always takes by in, caring for and helping animals in need. Since he is a veterinarian it comes natural for him. He one day stumbles upon a beautiful woman who he could tell needed help but was afraid to accept help. This book hooked me right away as I watch their story unfold. He sticks by her side to unravel the mystery of who she is and what happened to her. Along the way he enlisted help from the other Saints. Has Blaise found the woman for him, one that could love his lifestyle? Can he save her from her past? Don't miss reading this one. It is part of a series but can be read as a stand alone. I was gifted a copy for a fair and honest review.

The Saints just keep getting better and better! In Remember Love, we get the story of Blaise, the animal- loving vet who finds it hard to find a woman who will fully accept his life style, but not the investigator part. No, the man that has animals all over the house. Then, one day while out to eat with the whole gang, Blaise spots a women at the bar, eating her weight in free peanuts and water. Dirty, skinny and in unkempt clothes, Blaise had the waitress send a plate of wings over to her but when her turns back to her, she's gone, but at least so are the wings. Unsettled by her disappearing act, he heads to the restroom and out for air and stumbles upon the woman and her massive dog. From here Blaise sets out on the journey of a lifetime finding his mystery woman and helping her with her own demons in a fight for life, identity and love.

I loved this book I have been waiting for Blaise story since his character was first introduced. Remember Love is Blasie story he's the veterinarian and loves helping animals and people in need so when he stumbles across a woman and her dog in obvious need he does all he can to help, but he soon finds out that she is a mystery to herself and they need all the help they can get to solve not only her identity but what happened to her and who's to blame, but as they start to put the pieces of her life and her accident together they may also be risking their future as well, will Blasie and the team from Saints Protection be able to solve who's involved, will Blaise who's finally been able to find the one girl who could love him and his life be able to protect her or will people

from her past finally finish what they started. Loved this book had all the suspense and romance you expect from Maryann Jordan, my new favourite of the series!!!

So, everyone of my reviews seem to say that each Saint is my favorite, but I definitely have a soft spot for Blaise. His love for animals completely melted my heart and then his feelings and treatment of Grace sealed the deal. In Remember Love, Blaise has a special skill that I didn't really equate with the others...he's a veterinarian. I'm not sure why, but once I started reading, it all clicked. Lord, he is such a sweetheart, but all alpha...he just makes you all melty (is that a word?) :) Grace is a woman that seems to be homeless and Blaise is drawn to her. He begins to try and get her to trust him, but what he doesn't know is she's not really a homeless person...someone attempted to murder her and she lost her memory in the "accident." Blaise is able to find out who she is and he is so patient with her yet you can see the love growing between them daily. And not just love...they have amazing passionate chemistry as well. Both are a perfect fit for each other and they are definitely one of my favorite couples so far. Maryann Jordan is outdoing herself each time with the suspense factor in her books. I'm just as wrapped up in that as I'm the romance. I had no clue who the baddie was in this one...I mean, none at all. When you make it to the end and realize who it is, you will be shocked. I actually swiped backwards and read it again. Remember Love is a story of hope, love, passion, and if there is a moral to the story, I think it would be to look beyond what someone's exterior might show. This book is definitely going into my reread list...ok, everyone of her books do lol. Congratulations on another fantastic book, Ms. Jordan. I'm so excited about the new series, Luke's story, and anything you want to write. I give Remember Love 5+ stars and recommend it to anyone who loves a hot sweet romance with suspense that will keep you on the edge of your seat.

This is another amazing 5 star read from MaryAnn Jordan. Her series just keep getting better and better and this one definitely did not disappoint. Blaise is a veterinarian who happens to stumble across a stray dog and it's homeless owner. Of course he wants to protect her right away, but she does her best to stay away. He will protect her at all cost when he finds out that she had an accident that took away her memory. Grace is homeless and it's just her and her trusted dog. She waits outside of a bar every night to find any food that she can for them. One night Blaise happens to stumble across them but she runs away quickly. She is determined to not let their paths cross again but they do, and finally she lets him help her find out what happened to her memory. Will these two get the happy ending they both desire so badly or will others make it nearly impossible? You must read this amazing book to find out!!
