The Complete Fifty Shades Of Alice: A Fairy Tale For Adults (The Fifty Shades Of Alice Trilogy)

Synopsis

Eighteen-year-old Alice is sexually unfulfilled. But then she follows a very special white rabbit to places beyond her wildest erotica imagination. There are no nice boys--or girls--down here. Only those who indulge in secret, forbidden, kinky fantasies. From escapades in a sexual Wonderland, to some hot encounters through the Looking Glass, and on to the infamous Hellfire Club, this isn't the fairy tale you grew up reading. This adults-only story is for those with sinful desires, who wish to explore erotic excess beyond the plain vanilla of everyday life. The bestselling erotica trilogy is now compiled into a single, full-length novel, for only the most adventurous readers. THE COMPLETE FIFTY SHADES OF ALICE It's erotica for smart people who like to laugh, just like you. Follow Alice down the rabbit hole, if you dare...

Customer Reviews

pleasantly surprised. It was a lot better than I thought it was going to be. I thought it was going to be straight erotica but there was actually something else to it. It made me laugh with the satire in it.

Much better than I expected it to be! I was expecting the erotica, but the humorous dialog and the aside comments from the author made me chuckle. Well worth it if you are wanting something hot to

read while enjoying a funny storyline/fantasy.

I picked up this book after hearing it mentioned on a podcast. I thought it was a clever concept and was interested to see how the author added a "50 Shades" twist to the familiar Alice in Wonderland story. **FIFTY SHADES OF ALICE IN WONDERLAND:** This particular book was my favorite of the three. I thought the author did a good job of adhering to the general structure of Alice and Wonderland and creating memorable twists on those familiar scenes. I wasn't a huge fan of the actual writing with its repetitive phrasing and hit-or-miss attempts at humor, but the story was compelling and it was an entertaining read. **FIFTY SHADES OF ALICE THROUGH THE LOOKING GLASS:** The middle installment of the trilogy felt like a step down from the first volume. It was still an entertaining read, but felt like it was trying a little too hard to top the scenes and extremes of the first book, which didn't always make a lot of narrative sense (even in a fantasy world). **FIFTY SHADES OF ALICE AT THE HELLFIRE CLUB:** This was my least favorite volume in the trilogy. It felt a little rushed and over the top (even for fantasy erotica), and more of a collection of scenes than a consistent narrative. The story ended on a positive note, but it was difficult to stay invested in this part of the story. Overall, this was a fun, quick read but ultimately didn't really impress. The erotic elements were decent but the rest of the writing connecting the erotic scenes was a little lacking. It was a fun, quick read, but in retrospect, I probably would have rather stopped after paying \$2.99 for the first one rather than paying an additional \$4 for the two less-successful sequels.

Cute concept. Well written. Totally engrossing. One of those books you can't put down and if you do, you have to rush back to see what will come next.

This is a very fun series of erotic adventures featuring Alice. It is a truly lighthearted venture into many different aspects of consensual sex. Most of the characters the reader will be familiar with but they are portrayed differently than you have experienced them in the past.

I love fairytales. I like them so much I even like the idea of fairy tales. I found this set to be just okay. There were lots of explicit sex scenes, however I found some of the storyline to be thin. I actually got bored reading through the 3rd story that I never finished it. It felt like more emphasis was put on the explicit scenes than writing and the plot line and character development was rushed through. I don't hate it. I'm not mad at it. I just didn't love it.

You really have to have a good sense of humor to enjoy these books. LOL The things that are done to some of our favorite authors/characters is astounding. I think Alice has sex with every author/character you can think of and some in most delightful ways. And there is a lesson to be learned. But personally if I were buying the books again, I would get them one at a time, just in case it's not your cup of tea. I LOVED THEM (cracks up)

I was intrigued and excited to read another take on Wonderland...until I realized that this book wouldn't deliver. Part 1 is honestly as far as this story should have gone, since the writing and story development declined from there. The shameless commercial plugs, the snarky disdain for literary classics, and the overwhelmingly cheesy literary puns were just too much. I could barely bring myself to finish the book.
