## Synopsis

[Siren Menage Everlasting: Erotic Menage Romantic Suspense, M/F/M/M/M, HEA] Antonia is new to Repose, a small town that has changed her sister's life in a big way. Will it change hers too? She doesn't know, especially when she gets there, running from an abusive ex, and confronted by the most intimidating men she has ever met. She starts to hear about their rules, and how all women are protected and that she needs to let down her guard and let them protect her. She isn't budging, but her now timid, scarred personality has gained the attention of four dominant, older brothers. It's hard to resist their control and the attraction she is fighting for them. She's determined to start a new life, men-free, and focus on staying hidden with the hope of never revealing her scars, or having to face the man who caused them. It seems the attraction to Cesar, Gino, Fox and Damon is way too strong to fight. It becomes even harder to resist them when she learns of their own scars and how truly understanding they are to hers. It seems she may finally have found men who could love her like she only dreamed about. Because of her past, she's a little insecure, and when evidence is presented to her proving they aren't loyal she never suspects them to be liars, or orchestrated by her ex, the one man who is dead set on taking her back. \*\* A Siren Erotic Romance

## Customer Reviews

I was an avid reader of this author for a very long time but I quit reading Dixie Dwyer's books about 2 years ago. They were getting shorter, more rushed and too expensive. Came across this new one and decided to give it a chance. This has more diverse characters, who are sexy and interesting in each his own way. I have stopped being surprised by how quickly the sex scenes are in play. Some in depth "getting to know you" conversations would have been welcome. At least a group date or two. Especially since the timid heroine had escaped from such a brutal relationship previously. Within a matter of days they are all going at it like rabbits, including during lunch breaks. Yes the sex scenes are hot, the guys are hot. They proclaim love to the heroine, but really don't know much about each other. The premise of the story is very good. Loved the 4 caring brothers. As usual the ending seemed rushed. This could have closed with a bigger , slower finish to the bad guy getting his. However, this story was much improved over previous reads. It did keep me interested due to the sexy, hot hero's.

I love most of Dixie's work, that being said I have to say that this is the same plot with different character names, with a different town name, being recycled over and over. I understand that if a formula for a plot works don't change it, but this is getting redundant. This new series is something I won't be reading any more of unfortunately, I cannot get attached to characters who are all the same as in her other series. This makes me not want to read more. If I could politely suggest that Dixie get out of her comfort zone and come up with a better plot line, I think both she and her readers would be pleasantly surprised. Unfortunately this book does nothing for me. If you have read her Soldiers of Pearl series, this one starts just the same, only with different character names. I read others review before I read this and did not want to trust that review, but more of the same is right....

Don't get me wrong. I like Dixie Lynn Dwyer books, but its just more of the same. Just more scars, more harden men, but story line I find is the same in the last couple of books. I buy her books and read them and only notice the different town name, and what the men do for a job different. Its an OK story of female struggles and making the heroine over come them, but I personally find it repeating. I rated it 2 out of 5. Hate me its find I still like your stories, but will wait for a while to see if your story lines will be different.

I have only read a few books by this author and they've all been good! This definitely not an original but it was a quick, sexy book with surprisingly tender moments. The heroine is working

through issues left by the abuse of her ex and all the heroes are very attentive to this fact. Was it worth the \$4.24 price tag? Eh, but all menage books seem to be about \$4 so I'll leave it to you.

I have read most of her different series, I just love,love them. Can't wait for the next one.
