Customer Reviews

I love this series. This one was especially good because it was just what the title promised...a good old-fashioned love story. It was different from the others in a good way. Don't get me wrong, there is

some drama but not over the top. It was just right. Amber is a young widow with a baby girl. She struggles to overcome her grief and accept that she can love again. She meets four brothers who struggle with their own insecurities and over time they come together and heal each other. Wonderful story. There were a few editing errors, but they were not so much that they took from the story. Five stars and I cannot wait for the next one!

I usually don't care for second chance love stories, but this one was fantastic. I loved the characters and how well they, and their histories, blended. Throw in the creepy stalker and the story was sensational. Once I started reading, I couldn't put it down. I am looking forward to reading more by this author.
