# DSM-5 ¿Quo Vadis? (Spanish Edition)

## Synopsis

En esta obra se destacan las principales novedades que afectan al diseño de todos los diagnósticos, como la aproximación dimensional, el rol de la cultura y la creación de metaestructuras diagnósticas que aglutinan los diferentes grupos diagnósticos, y por lo tanto, implica un cambio ante el sistema clasificador en el que se basará la psiquiatría en los próximos años.

## Book Information

File Size: 230 KB
