Know Your Heart: A New Zealand Enemies To Lovers Romance (Far North Series Book 2)

Synopsis

He is the one she couldn't remember. She is the one he couldn't forget | After being unexpectedly kicked off a movie set, her part given to a younger actress, Savannah Payne flees to her holiday house in Bounty Bay. There, in her little hideaway managed for her by her older cousin, she'll be able to lick her wounds privately, and prepare for an audition of a lifetime in L.A. Only her cousin has rented the place out to an old friend for the next month. A friend whose knowledge of the law means she has no easy way to evict her stop-the-heart sexy tenant. He tempts her, challenges her, and sees to the heart of who she is with knowing ice-blue eyes. Glen Cooper has woken up and smelled the decaying roses. Working in his father's law firm is murder on his creative heart. A month in New Zealand's sub-tropical Far North without the distraction of family and work is what he needs to finally complete writing the book he's worked on for years. He hadn't anticipated the woman who'd haunted his university days arriving on his doorstep, demanding her house back. But the distraction of her close by must stop. With a literary agent's deadline approaching, he has to ignore his growing attraction to Savannah or his dream may never become a reality. Something about Glen stirs Savannah's blood and the slippery memories of a quiet young man she glimpsed in the background of her tumultuous teenage years begin to return. But how can they make the sacrifice love requires when she has one foot out the door "ready to walk away from him a second time?"

*I was provided with an ARC of Know Your Heart in exchange for an honest review. I am not compensated for my honest opinion.*Twenty-seven-year-old actress Savannah Payne slinks home to New Zealand after losing a role to a younger and skinnier actress. All she wants to do is spend some time at her Bounty Bay property while she tries to lose some weight and prepare for another audition to get her career back on track. But she doesnâ™t count on the tenant her propertyâ™s been rented to refusing to leave.Glen Cooper has taken a leave of absence from his job at his fatherâ™s law firm and rented Savannahâ™s home so he can finish writing his novel. But the bombshell he was in love with ten years ago is making things difficult. When he wonâ™t let her into

the house, she sets up a camper on the property, plays loud music, and distracts him with her skimpy clothes and workout routines. Glen and Sav are constantly butting heads, but that doesn't stop the sparks from flying between them. Sav doesn't remember Glen being her knight in shining armor ten years ago, and Glen is doing everything in his power to deny his attraction. When they both give up the fight to stay away, they still can't fully be together. Sav needs to prove herself in Hollywood, and Glen realizes that if you love someone, you have to set them free. Tracey Alvarez has once again created a contemporary romance masterpiece with *Know Your Heart*. Her writing style will keep you hanging on to every word and feeling the characters' heartbreak right along with them. There is never a dull moment, and the way Sav and Glen annoy each other is amusing and enjoyable. As usual, the switch is flipped at just the right moment when the characters go from fighting each other to giving in to the attraction.

Know your Heart grabs your heart and holds on to it. It is the second in the hot NZ series *Far North* by Tracey Alvarez. The heroine, Savannah Payne, is a Hollywood actress who had been featured in tabloids because of her very public breakup with her husband and now has been unceremoniously dumped from her comeback movie for an actress who is five years younger and 20 pounds lighter. Feeling extremely insecure and washed up at 27, all she wants to do is hide away in her *Far North* retreat, stay away from the media, and then work her butt off (literally and figuratively) for a chance at a leading role in a new sitcom. Her only problem is that her haven has been rented out for 6 weeks to Glen, a corporate lawyer who is an aspiring writer in need of a quiet, unreachable place on deadline to finish his first book of fantasy. Savannah believes all she has to do is ask the renter nicely to leave. Unfortunately, she doesn't know that she had known Glen in his geeky days as a friend of her cousin, and he had actually rescued her after a drunken night in a bar. Fireworks begin instantly when her best flirty smile does not result in the renter's immediate offer to leave; in fact he shuts the door in her face. She does not recognize Glen at all in the beginning, and he just wants to forget her. And so begins the conflict over who gets to stay in the house. She doesn't realize that the battle to get into the house and get Glen out begins to heal her wounded pride and confidence, nor does she realize she is becoming interested in him. Yet she does figure out pretty quickly that he sees the real her, Savannah Davis, not the movie star Savannah Payne, although she doesn't understand why.
