Harper Harlow can see ghosts. She's always been able to see them. by miraculously not getting

thrown into psyche wards or ostracized by her small town community. Harper and her bestie. Zander, have a ghost hunting business. Her special sight leads her to a crime scene where new Detective, or police officer, Jared Monroe is on his first case. Here' what I liked: the idea behind the story. The first chapter was fun, and the idea of a dream catcher being a trap to spirits. The MC is closer to thirty than 18.1'm going to do my best to be gentle. Here's what I didn't like: \*The only distinct voice was Molly, everyone else sounded the same. Luckily the author made it clear who was speaking.\* In the first chapter, it sounded like Harper had some kind of magic, or force, that pushed the spirit into the dream catcher. There was no explanation and nothing like that happened again.\*Harper can see the dead. But, again, in the first chapter she asks if Molly can see the ghost. Is it because Harper can only see ghosts that aren't acting like poltergeist? Do they have to be newly deceased? Why couldn't she see that ghost?\*There are no other ghosts in that town. She doesn't see another one at all, only Annie.\*The gossip mill in Whisper Cove. Yeah, yeah, yeah - it's a small town. But Mel is a seasoned police officer, he should know better than to gossip about an active murder case with his sister, who isn't in law enforcement.\*Speaking of, in no way should Jared have discussed the details of the case with Harper, even if he just wants to get in her pants.\*Harper is everyone's darling. How? She's a mopey, disgruntled, anti-social girl who seems confused about social interactions.\*The Scooby Doo reference.
