Hunting Down Dragons: An Urban Fantasy (Moonlight Dragon Book 2)

Synopsis

Death is coming for you, Anne Moody...The Oddsmakers have been overseeing the use of magick in Las Vegas since the city's inception. For a dragon sorceress like Anne Moody, who tries to stay beneath the radar while running her cursed pawn shop, the Oddsmakers are the boogeymen she never wants to meet. They have the power to strip of her of her magick or worse if they deem her a danger to the city. Unfortunately, the Oddsmakers want her for a mission and Anne can't refuse. However, she has her own agenda: investigating a sorcerer who possesses the power to not only create life, but to raise the dead. With the gargoyle Vale by her side and with the help of her magickal friends, Anne tracks strange creatures beneath the streets of Las Vegas. But when tragedy strikes close to home, Anne realizes she may have to risk the wrath of the Oddsmakers and call upon her dragon for help. Because in the isolated desert, far from the eyes of ordinary humans, she is about to confront her parents' killer. Nothing is going to stop her from finding vengeance. An exciting entry in the urban fantasy series for fans of Patricia Briggs and Ilona Andrews! Customer Reviews

I am one of the luckiest of people in the whole wide universe. I was given a free copy of *Descended From Dragons* in return for an honest review. I loved the book and whined until in desperation, Ms. Owens either had to send me Book 2 to read and review or send *Lucky*. I am so lucky she sent the book, an Advanced Readers Copy (ARC), and not *Lucky, the Dragon!* (Reviewers must be hard to get and are not to be eliminated without just cause ;-)) Another one-sit read that should not be started until you have time to finish. Often, book 2 of a series tends to fall a little flat, but this one remains as exciting as the first book. Perhaps *Hunting Down Dragons* is a tad more exciting due to the return, and expanding of, characters and their roles. Owens deserves not just to sit on the shelf with Patricia Briggs and Anne Bishop, but to be welcomed, too! Anne Moody is still cursed, and I'm sure she shall remain so for the duration of the series (may it be long and many!). The Oddsmakers, those self-appointed magickal beings who keep the wielders of magick in Las Vegas to a bare minimum, do not like Dragons. And they do not like that Anne Moody's familiar is a dragon. I think it safe to say, they do not like Anne Moody. They do not just summon Ms. Moody to their lair, they fetch her, and none too politely. They give her orders, she gives them mouth and attitude. I believe it is not a spoiler to state she survives the interviews; after all, she is the protagonist of the series. Anne and her boyfriend, Vale, are looking for a truly evil entity, introduced in *Descended From Dragons*. The Oddmakers want the entity left alone, he is theirs, and tells Anne she has an assignment and she must accept.
