Customer Reviews

Great storyline, fun read, a definite page turner too just full of drama. However, it does have some grammatical errors & my only pet peeve of this book is that the 3 main characters Nelle, Corey & Amy sound exactly alike! Plz give their own voice & personality - not of just the author.

I can't believe with all the technology today there were as many spelling and grammar errors in this book. I was also turned off by the drug usage in the storyline. Come on people we African Americans do more than have sex, fight, and get high. I am disappointed in this book and feel the writer could have left some of that out and it still would be a page tuner.

This is a title that represents this book to the fullest. To love a man more than you love your own self has never made sense to me. I was truly disgusted with Nelle at first. I couldn't understand why she kept putting herself in a situation to be hurt but she proved that once she learned to love herself unconditionally, she realized that she deserved better. Corey was doing too much. He brought all the drama he was going through on his own self trying to be slick. I thought Nelle was crazy but Amy had her beat. Amy wasn't as cool and laid back as people thought she was. Her mouth was a problem. She showed how really obsessed she was in the end. This story proves why it is never good to play with someone's feelings because it can become unhealthy.

Great story line but poorly written. Wrong words were spelled "write." Could be an excellent read if it were edited.

Nobody told you had to read Crazy in love first before you read the side chic series of books now I had a better understanding of a Crazy Amy. Nonetheless this book was okay but it wasn't better than Side chic 1_4 all four books was off the chain

I finished this book this morning. My bf purchased this for me and I was reluctant to reading it at first. I usually only read best seller books but I figured I would give it a try since it was on my kindle. The book was very predictable from the beginning. I was ok with this since the story line kept me reading. The characters in this book at times got very annoying with the situations that they were in also I had a problem with the way that all of the characters' grammar was the same. There should have been some differences in the way that the characters spoke all of the POV's sounded the same...example the word "juice box" was used in all 3 POV's. Also there were TOO MANY spelling and grammatical errors. There's really no excuse for this, especially that amount of errors. If this story would have had less of a predictable story line and less grammatical errors I would have given this 5 stars. I don't think I will be reading anymore for this author...just not my style sorry!

This story was crazy, dysfunctional, disturbing and had typos, but with all that stated I could not stop until it ran its course and I would recommend reading it. The dialog, rhyme and reason or lack of rational reasoning will keep you reading, if for nothing else than to say "wth" at the conclusion.(3RW TEAM YELLOW REVIEW)

This was the WORST book I've ever read in my life, I was surprised I even read the whole thing. The two women sound the exact same first of all. I don't understand some of the reading because of all the typos and grammar. Have you ever heard of spell check?
