# Dr. Mary's Monkey: How The Unsolved Murder Of A Doctor, A Secret Laboratory In New Orleans And Cancer-Causing Monkey Viruses Are Linked To Lee Harvey ... Assassination And Emerging Global Epidemics

## Synopsis

This new updated edition is not only hard cover for long life, but it contains an additional 25 pages of revelations from the author including documents from the FBI, CIA, CDC, and NOPD, plus the actual crime scene photos of the Mary Sherman murder. You'll see why we say this is the "Hottest cold case in America." The 1964 murder of a nationally known cancer researcher sets the stage for this gripping exposé of medical professionals enmeshed in covert government operations over the course of three decades. Following a trail of police records, FBI files, cancer statistics, and medical journals, this revealing book presents evidence of a web of medical secret-keeping that began with the handling of evidence in the JFK assassination and continued apace, sweeping doctors into cover-ups of cancer outbreaks, contaminated polio vaccine, the arrival of the AIDS virus, and biological weapon research using infected monkeys.

## Book Information

Hardcover: 428 pages

Publisher: Trine Day; New edition edition (July 21, 2014)

Language: English

ISBN-10: 1937584593

ISBN-13: 978-1937584597

Product Dimensions: 5.5 x 1.2 x 8.5 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars See all reviews (483 customer reviews)

Best Sellers Rank: #42,360 in Books (See Top 100 in Books) #58 in Books > Medical Books > Basic Sciences > Microbiology #61 in Books > Medical Books > History #178 in Books > Politics & Social Sciences > Social Sciences > Communication & Media Studies

## Customer Reviews

This is the best kept secret of the last 60 years with more subplots and surprise situations (with no endings in sight). Haslam is a very modest and humble man calling for what should be an obvious formal investigation into many issues still unresolved. He claims he's NOT the investigation, but his exposure is enough that if one reads the work entirely with an open mind, they will understand why 60 Minute TV Magazine Producers call this the "story of the century." Haslam introduces us to an unsolved murder of one of the leading cancer researchers of the last 75 years, Mary Sherman. Her autopsy was sealed for around 30 years, and Haslam's explanation of how she died makes far more sense than the official police report written under questionable police procedure. Most importantly,

Haslam introduces us to the dark side of the Polio Vaccine and the complications it went through during its development and the lasting problems we are now struggling with because of it -- the SV-40 VIRUS. It's all over your interest, but ask your doctor or a med school faculty doctor about the SV-40 Virus, and you'll learn, they know nothing about it. Their education and training has been so carefully compartmentalized and they know nothing of these issues, but they are all over the internet if you choose to look. Haslam teaches us about many doctors who lost their careers trying to blow the whistle on these issues. In short the polio vaccine made from monkey kidneys carried the SV-40 virus which remains dormant inside baby boomers who received the polio vaccine until the immune system is weakened to the point where the SV-40 Virus can transform into one of the major cancer's: lung, breast, soft tissue, bone cancer, etc.

This is a significantly updated version of Mr Haslam's 1995 book, "Mary, Ferrie & the Monkey Virus". If you only have the older version, you will want to get "Dr. Mary's Monkey". This book covers many areas of interest for a wide reader audience. Readers interested in new information about the JFK assassination will likely be the main audience, but other topics receive a lot of well-documented attention as well. These include epidemiology (polio, soft tissue cancers, AIDS), cold case murder investigations by an 'amateur sleuth', vaccines, New Orleans history, US medical research history, and scientific topics--linear particle accelerators in particular. Readers interested in any one of these topics should find this book interesting and credible. I am not going to review this book in detail. Readers already know if they're basically interested or not, and additional detail is available from links I list below. I merely provide a shoppers' guide by addressing three points: 1. I believe that both the specialist and the general reader will find this book interesting, if not fascinating. 2. Ed Haslam is a credible author. 3. You can find out more about this book and its author for free with some links I provide. This book is very well written and organized. It contains dozens of black and white photographs, charts, graphs and maps. These graphics, while unfortunately not indexed, are nonetheless placed strategically in the text to aid readers' understanding of the text. As a former New Orleans resident, I appreciated the historic photos and maps of New Orleans. While Mr. Haslam does provide a lot of information, a strong, page-turning narrative style underlies the information.

See attached the news 1967 article on Jack Ruby's death: "The Sun quoted those who saw him near the end as saying: He insisted that cancer cells had been injected into him in prison. " I also attached two news articles on Mary Sherman's death. She was killed too, but they transported the

body to her apartment to make it look like a rob and stab murder. This was on the day that the Warren Commission started "investigating" the New Orleans connection. Mary Sherman was working for doctor Ochsner on the secret "Get Gastro with cancer" project. Judyth Vary Baker and Lee Oswald, and Clay Shaw and David Ferrie worked also on this project. Jack Ruby knew about it too. They were all killed, except for Shaw, he was high level CIA and could be relied on to keep his mouth when prosecuted by Jim Garrison, although there is some debate on whether his death was natural too. Judyth wasn't killed because she remained low profile and kept silent for 40 years. Wikipedia [...] See also the two pages of Double Cross, the biography on Sam Giancana written by his brother and godson. It says on page 416 that the list of weapons aimed at Castro included a cancer-producing injectable agent. Wim Some of the causes of death listed appear on the surface to be natural. Keep in mind that the CIA developed methods to "make it look like an accident". This was documented through the testimony of CIA technicians to the Church committee who told of TWEP technology (Termination With Extreme Prejudice) in 1975. These methods are designed to not be detected in postmortem examinations. I have a couple of excerpts of declassified CIA documents to demonstrate the case.
